

# Nuance Dragon Anywhere Mobile

Create documents of any length and edit, format and share them directly from your mobile device – whether at a remote location, visiting clients, or ending your workday at a local coffee shop, with Dragon Anywhere Mobile, professional-grade mobile dictation.

Feature	Description
Enjoy fast, accurate professional-grade dictation, with no time or length limits	Speak as long as you want, capturing all of the details needed to complete detailed, accurate documents or form-based reports on iOS® and Android™ smartphones and tablets. <ul style="list-style-type: none"><li>– Deep Learning technology delivers fast dictation with high recognition accuracy that continually improves as it adapts to your voice</li></ul>
Use the powerful voice-editing features many have come to enjoy from Dragon for Windows® clients	Now, it's even easier to modify, edit, or format text using simple voice commands and customizations. <ul style="list-style-type: none"><li>– Use the new Correction Menu to quickly correct spelling of words</li><li>– Edit words in their Spoken Form so that they are dictated the way you want them to appear each time</li><li>– Train words to teach Dragon exactly how you want words to appear each time you dictate</li></ul>
Boost efficiency with powerful customization	Customize words for accurate recognition of the specific industry terms, acronyms, proper nouns or personal preferences you use every day. <ul style="list-style-type: none"><li>– Add words to your vocabulary to improve accuracy over time</li><li>– Automatically sync added words to your account so they're available on your Dragon Anywhere Mobile device or on Dragon for Windows clients</li></ul>
Short cut steps with simple voice commands	Define simple voice commands to short-cut repetitive processes, speed up document creation and boost your mobile productivity. <ul style="list-style-type: none"><li>– Use auto-texts to insert your signature in a letter, a list in a quote or a standard clause</li><li>– Complete frequently used forms in record time by bringing up a stored template and dictating to fill in the information</li><li>– Use voice commands like "Next/Previous field" to navigate between fields for even faster form filling</li></ul>
Cloud-hosted with lightweight client	Convenient mobile app connects to its cloud-hosted server component. <ul style="list-style-type: none"><li>– iOS or Android app scales easily and connects to its Microsoft Azure hosting infrastructure</li><li>– AES 256-bit encryption with all data encrypted in transit and at rest</li></ul>
